

# BROOKS ENERGY LLC

## CAPABILITY STATEMENT

### Company Overview

Brooks Energy LLC is a government-focused supplier of energy-efficient appliances, facility equipment, and procurement solutions serving federal, state, and local agencies nationwide. Our mission is to help government organizations reduce energy consumption, lower operating costs, and meet sustainability objectives through reliable sourcing, procurement support, and coordinated logistics.

### Core Competencies

- ENERGY STAR® Appliance Procurement
- Multifamily Housing Appliance Programs
- Energy-Efficient Lighting Solutions
- Facility Modernization Support
- Government Procurement Coordination
- Product Sourcing and Supplier Management
- Logistics and Delivery Coordination

### Differentiators

- Leadership with more than 20 years of experience in green building, sustainable construction, and energy-efficiency initiatives.
- Dedicated focus on government agencies, housing authorities, and institutional buyers.
- Responsive small-business service with direct access to decision-makers.
- Nationwide supplier network supporting projects across the United States.
